

Records of H&S monitoring- Management

To ensure our the health and safety of our workforce and working conditions are constantly checked and developed Viking will implement internal programmes that will be held periodically, at no greater interval than once a year. The HASAW manager, Allan Grainger, and the QA/H&S controller will identify aspects of Health which require monitoring. This will take the form of issuing H&S questionnaires to allow employees to ask key points about their health. Information will be held confidentially, and will only be used to highlight potential health problems which may arise from our work activities, and will recommend further qualified examination by the employees doctor, should this be required.

All accidents and work related sickness and absences will be investigated by

HASAW manager – Allan Grainger
QA/H&S Controller – Holly Grainger
The information will be reviewed by:

Any actions required to prevent recurrence will be implemented by

Financial Director – Earl Phillips
Mick Hind – Works manager
