

HASAW Risk Management

Related to Health and Safety Risks arising from work activities

To ensure that health and safety arrangements are in place to control the risks arising from work activities the following Management Structure will be implemented and maintained.

Risk assessments will be undertaken by, and ultimate responsibility resides with;

Site Manager: HASAW Manager : Allan Grainger B.Sc Nebosh

Further assistance to assess the risks and review the controls prior to implementation will be provided by

- Works Manager
- Technical Manager
- Assistant Project Managers
- Design Draughtsmen

The findings of the risk assessments will be reported to

- Works Manager
- Site/Works Supervisors

Action that is required to remove or control risks will be approved and implemented by

- Site Manager / HASAW Manager
- Works Manager
- Site Supervisors
- Other delegated personnel

Site and Works Supervisors will be responsible for ensuring that any required actions are implemented

Checks will be made to ensure the actions are implemented, and the chain of responsibility for this will ultimately reside with HASAW Manager

- Persons delegated to implement controls
- Supervisors will check the actions are implemented
- Works manager will check that actions are implemented and recorded
- Site Manager will check that actions are implemented and recorded
- HASAW Manager

Risk assessments will be reviewed

At the point of issue
Change of personnel

Or when the activity changes, whichever is soonest
